

## Start-up Presentation Application

Venture-Med is a exclusive membership organization of accredited investors. Venture-Med screens companies within the healthcare space: Medical Device, Healthcare IT, Biopharma, and mobile apps. Startups that pass our screening process are invited to present at our **Healthcare Startup Presentation**. Each month the selected companies to present will have an opportunity to reach investors at two events, Palo Alto (WSGR Law) and San Francisco (Pillsbury Law).

Furthermore, we are actively involved in helping our selected startup companies with business and technical advise and coaching. Assuring that companies are properly guided is a critical step in the overall success rates. Venture-Med plays an integral part in your preparation for future rounds of funding. Please fill out, sign and return in order to start the process. No Fee to present.

### Due Diligence and Disclaimer

The due diligence process is negotiated between the interested investors and the companies seeking funding. Venture-Med does not perform any due diligence, except to the extent that the group needs to determine the relative quality of a startup company for the purpose of presentation to the group only. Venture-Med and its members do not vouch for the risk involved in investing in any of the companies presented to the group, requires that investors interested in presenting companies be accredited investors, and does not engage in the sale or resale of securities.
